

Hello!

We are pleased to confirm that Kier Construction have been appointed by Alumno Developments to construct and deliver the new student accommodation at Sheraton Park, Durham.

Kier are due to commence at Sheraton Park in September/October 2015 with planned completion in June 2017.

You'll have seen some activity on site recently, these are preparatory works which will allow us to hit the ground running in September. Kier's initial works will see the site hoarding being repaired/rectified and painted, along with tree protection zones being established on site. Works at Neville House will commence with scaffolding being erected to enable roof and window replacements.

Once on site we will issue monthly newsletters to keep residents up to date with the construction works as they progress.

We will be holding a “meet and greet” event on **Thursday 10th September** with local residents at a venue close to the site. This will enable you to meet with the Kier site team and Alumno to discuss the works planned over the coming months. Once a venue and time are confirmed we will supply further details on the website:
